

Privacy Policy

Last Updated: May 7, 2026

This Privacy Policy describes our policies and procedures on the collection, use, and disclosure of your information when you use **Karta Polaka Practice** (the "Application") and tells you about your privacy rights and how the law protects you.

We use your personal data to provide and improve the Service. By using the Service, you agree to the collection and use of information in accordance with this Privacy Policy.

| Data Collection and Usage

In alignment with our Google Play Data Safety declaration, we process the following data types for functionality and service improvement:

Personal Data

While using our Application, we may ask you to provide us with certain personally identifiable information that can be used to contact or identify you. This includes:

- **Name:** Collected for app functionality and account management.
- **Email address:** Used for account creation, authentication, and support communications.
- **User IDs:** Unique identifiers associated with your personal account.

Audio Information

The Application processes audio data to support specific features:

- **Voice or Sound Recordings:** Shared for core app functionality.
- **Other Audio Files:** Shared as part of the application's practice services.

App Activity and Performance Data

To ensure a stable and high-quality experience, we collect the following diagnostic data:

- **App Interactions:** Data on how you interact with the Application.
- **Crash Logs and Diagnostics:** Information regarding application crashes and performance metrics to facilitate bug fixes and performance optimization.

Device Identifiers

- **Device or other IDs:** Unique identifiers associated with your device, collected and shared for analytics purposes.

Sharing of Your Data

We share the data types mentioned above with third-party service providers (such as analytics and crash reporting tools) for the following purposes:

- **Analytics:** To monitor and analyze the use of our Service.
- **App Functionality:** To enable core features, specifically audio-related processing.

Data Security

Encryption in Transit: All data collected by the Application is transferred using secure, encrypted channels (HTTPS/TLS) to ensure your information remains protected during transmission.

Account Creation and Data Deletion

The Application supports account creation via Username and Password. In compliance with Google Play requirements, we provide the following options for managing your data:

- **Optionality:** Personal information such as Name and Email is provided at the user's discretion.
- **Data Deletion Requests:** Users may request the deletion of their account and associated data at any time. To submit a request, please visit our Discord channel at <https://discord.gg/Dcw5EdJsKx> or contact us via email.
